

Grace is great for our boys. They look forward to going to school with teachers who teach and guide in a loving manner that accepts every child where they are. The school's curriculum challenges our boys. They come home with stories of what they've experienced and learned for the day. Also, the teachers and parents work together to encourage the child in their school work and their relations with others. We are happy with Grace.

### Playing checkers

We stopped for dinner at Cracker Barrel on our way to Bear Lake this evening. Lily asked if we could play a game of checkers. But then she said I would have to teach her since she had never played before. I said, "What are they teaching you at school?!" Lily replied, "They teach us devotions and the love of Jesus! And sometimes math and other stuff. And that is how you know your child is in the right school.

### Success at Grace Lutheran School

In 2014, our family relocated to Sandy, Utah. Our children were welcomed at Grace Lutheran School with open arms. The staff is dedicated and energetic in promoting learning and growth in the teachings of the Bible and Jesus Christ. We found that Grace offered a well-rounded curriculum and rules of conduct for social growth. Subjects offered at Grace include: Language arts, math, science, health, social studies, spelling, handwriting, computer science, Spanish language, library skills, gym, art, music, and Chapel. There are also band, choir, and hand bell classes. All subjects are geared to individual learning and success.

There are school uniforms, which take the spotlight off of fashions and direct the students' attention towards learning and success.

Grace offers a variety of after school sports programs: boys' soccer, volleyball, basketball, girls' soccer and cross country. There are a variety of field trips during the school year also.

Parents can become involved in the PTL or volunteer their time in school during the year. There are fundraisers where parental involvement is extremely important.

Grace also has a fine student teacher exchange program. The student teachers come from Japan!

Last but not least, Grace offers an after school day-care program till 6 pm for working parents.

Everything at Grace Lutheran School is geared toward the educational, social, and spiritual growth of its students.

Sincerely,  
Barbara Fisher

When people ask me why we send our two boys to Grace Lutheran School, I always answer with one word: community. Our children experience every day that they are a part of a caring and nurturing community where faculty and parents alike contribute for the complete educational experience. I highly recommend Grace Lutheran for your family.

What I love most about Grace Lutheran School is that I feel those interacting with my daughter everyday love her as much as we do! The faculty and staff are kind, loving, and thoughtful and genuinely love what they are doing in educating all students in core curriculum and teaching a love for God. I enjoy that parents are actively sought out to be involved not only in the classroom but with other outside school events and are welcoming to everyone at school. Grace is a place where high standards in learning are part of the daily routine and where kindness to all no matter who you are is exemplified. Grace is a slice of heaven in the heart of Sandy, Utah and a school that every child should attend!

With Warmest and Sincere Thoughts,

Randi Frausto
